“Creativity is held as one of the most important competencies by 21st century employers”

# WALT: Use 2D shapes to create a 3D object.

---

PROBLEM: Mrs Mamo has been given materials to create a chair for the library. It needs to:

- Be used by children from Kindy to Year 6
- Portable & comfortable
- Name and label your 2D shapes
- Present your reflection to the class

# You can...

---

- Decide who you want to work with and where you want to work
- Use and present your design using your chosen materials

# RUBRIC

SUCCESS CRITERIA	I'm getting there	I've got it	WOW
<ul style="list-style-type: none"><li>• I can combine 2D shapes to make new shapes</li><li>• I can draw 2D shapes in different orientations</li><li>• I can combine 2 D shapes to make 3D objects</li><li>• I can measure 2D shapes and 3D objects</li></ul>			
<ul style="list-style-type: none"><li>• I have created a new, original chair that fits it's purpose</li><li>• I have combined my knowledge of measurement</li><li>• I have thought about and reflected on my designs</li></ul>
